

PLUMBER SAVER

The Plumber Saver is a unique kit. Used for cleaning and unstopping drains on toilets, sinks, showers, floor drains, kitchen sink disposals.

This exquisite ship shaped container holds a hidden cleaning brush and plunger. It can be discreetly placed next to your toilet or in any location in home or office.

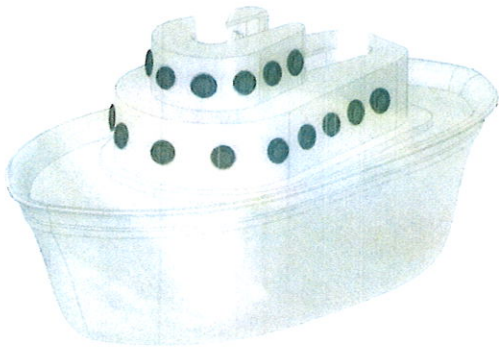

Made in China
Patent Pending

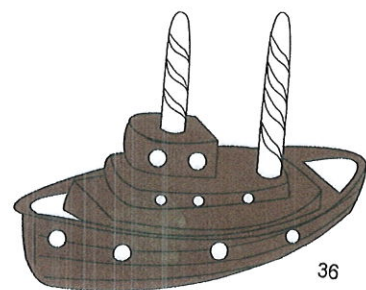

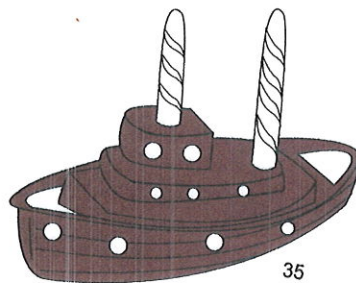

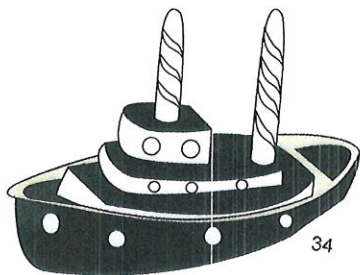

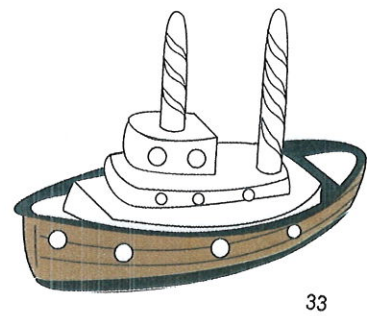

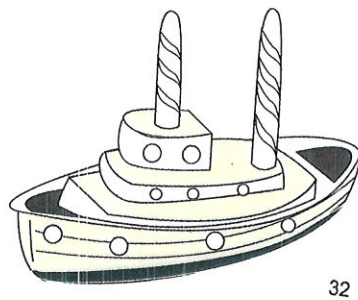

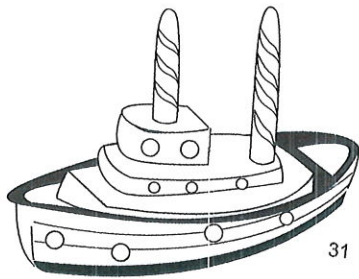

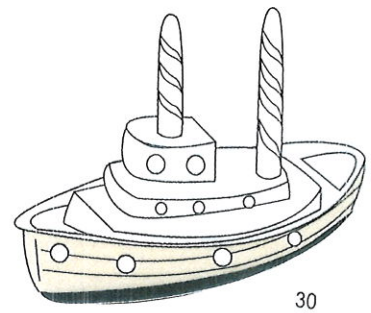

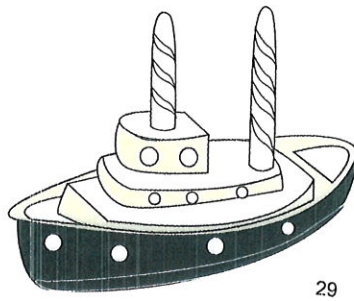

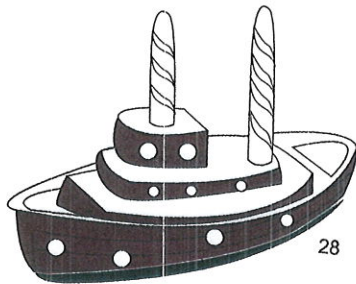

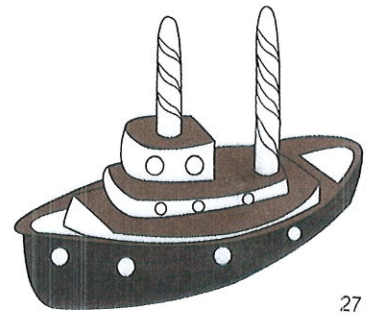

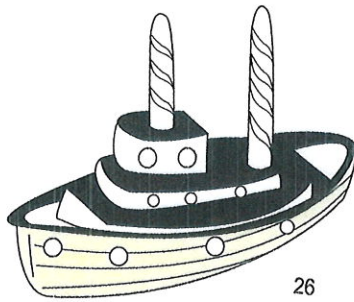

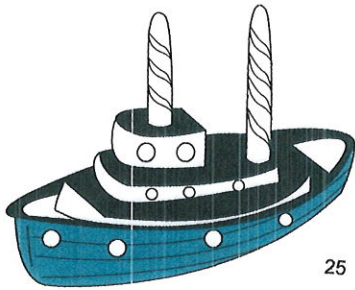

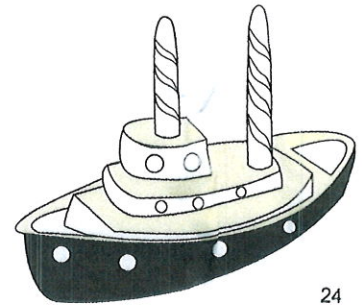

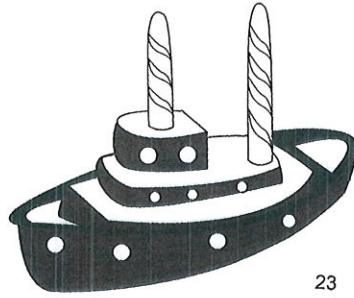

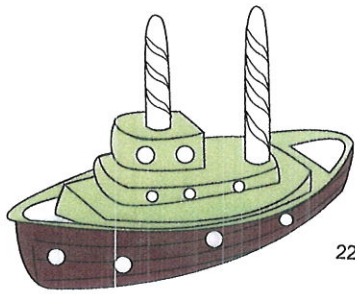

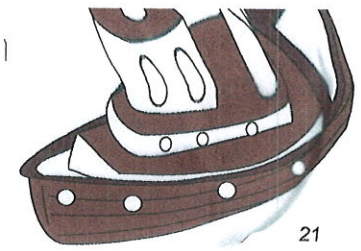

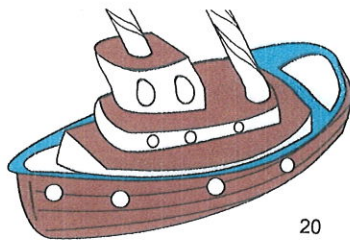

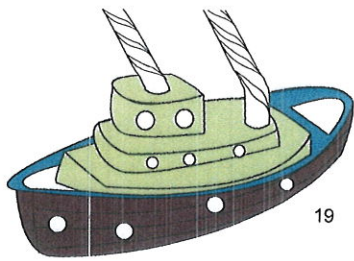

PLUMBER SAVER

Display three pictures on different part of the house:

1. Kitchen counter top- uses the brush for cleaning and plunging in case of overflowing. Leave as an art.
2. Toilet/Bathroom-leaves it next to toilet bowl. You can use it for shower, sink and tub.
3. Shelf- they can buy as an art and display it on their shelf.

You can throw away old brush and plunger. Make your bathroom look good. This ship will help beautify your bathroom, kitchen and other part of your house.

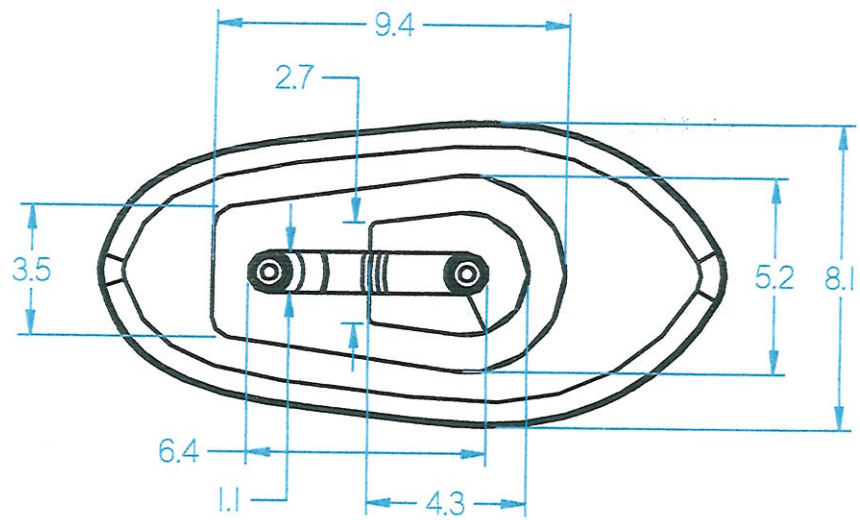

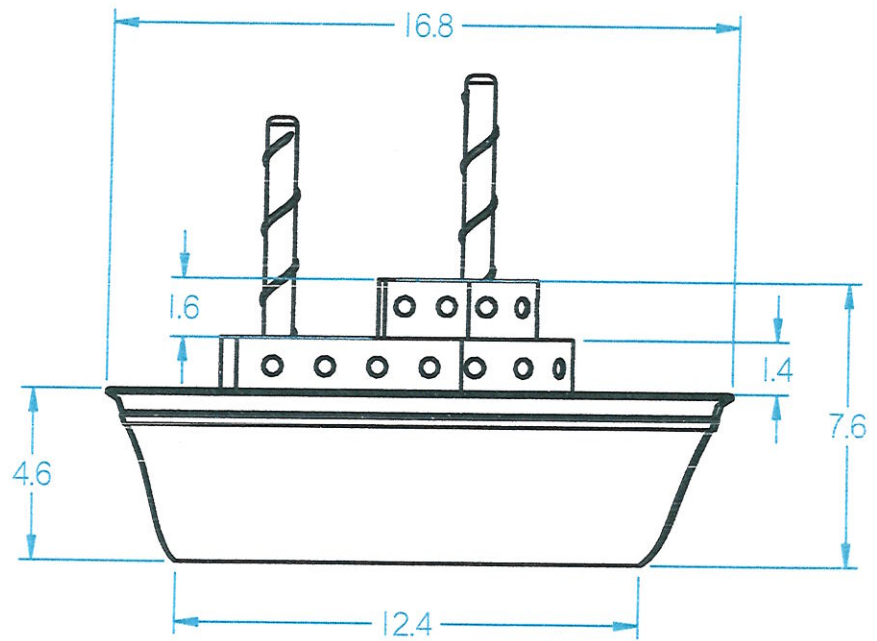

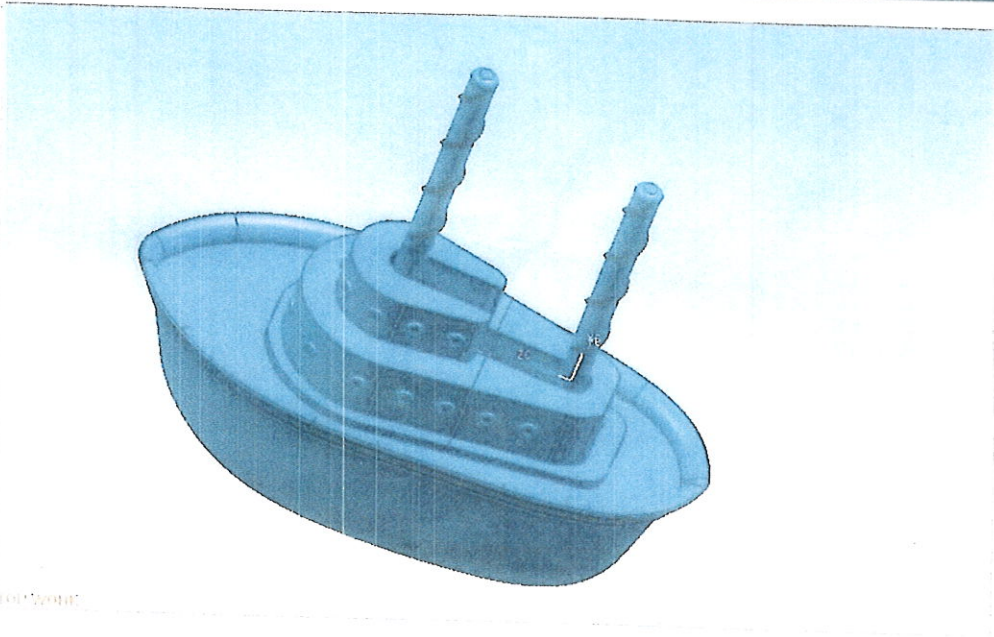

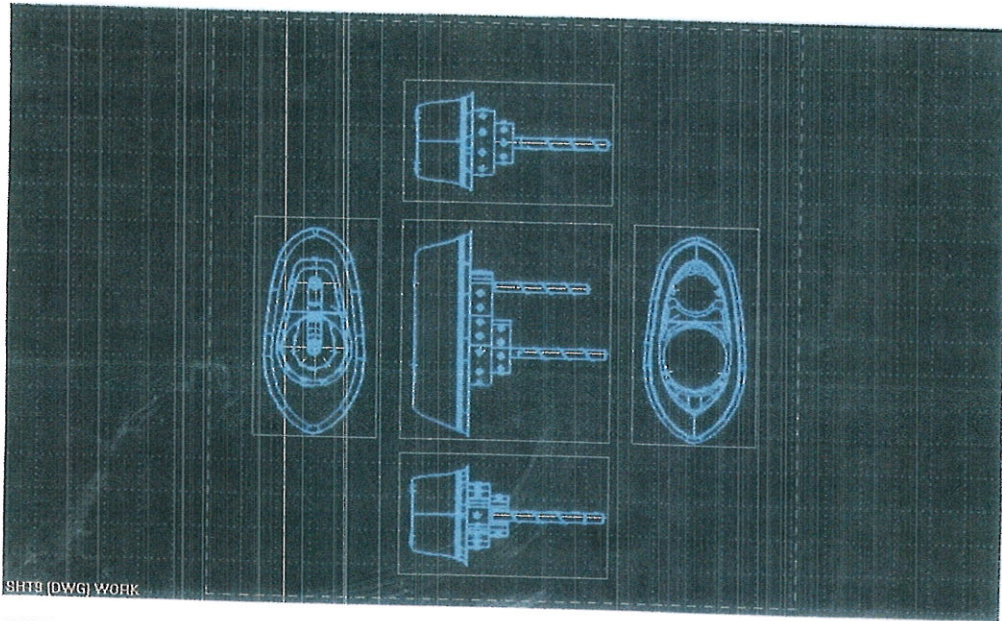

Very important to do and redo:

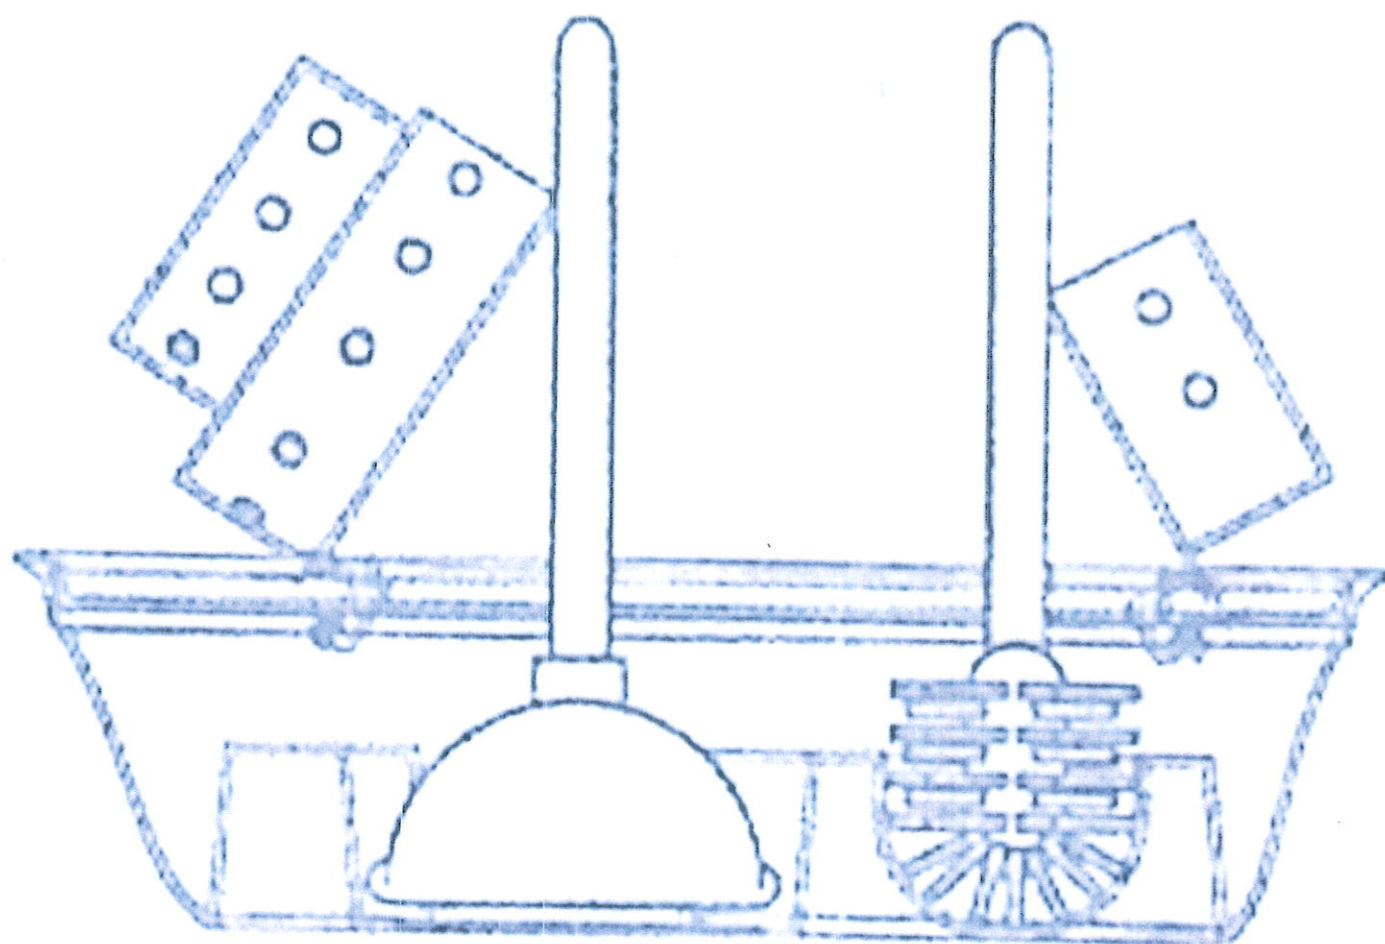

1. Opening/Closing (cover of brush and plunger):
 - Come out with your own idea and design that this will close properly.
 - The sample didn't closed properly, maybe put two hinges/clip or bigger hinges so it will closed right and correctly.
 - a. Don't put the clip, to close the cover, it broke easily and people don't have time to snap it.
 - b. Make it simple and fast to open and close.
 - c. Make it like a toolbox top that closing and opening easily.
2. Windows:
 - a. Snap on window comes out too far and easily get lost. Make it compress 9 out or push out from inside/out a little bit.
 - b. The red color should be black color.
3. Next prototype should be made in cherry wood color
 - a. Color: Overall should be shinny/glossy
 - b. Make it look natural wood
4. Size and shape everything looks good.
5. Plunger and brush should stand straight all the time.
